
Support forums moved

Posted by Steve - 2007/10/08 17:21

As you can see we have moved the support forum over in preparation of the latest releases of Export content. :)

In all there will be three new versions released:

- + One for Joomla 1.0+ series and will allow for exporting content between all versions of Joomla.
- + One for Joomla 1.5+ series and will allow for exporting content between all versions of Joomla.
- + One for Mambo that will work on 4.5+ and 4.6+ and will allow for exporting content over to all versions of Joomla.
