I am pleased to announce the release of Export Content beta 1.5.

New features include:

- +You are now able to compile content by section.
- +Allow or disallow static content from being added when compiling data.
- +Content may now be transferred by multiple sections still maintaining the site structure.
- +New step by step help tips for easier user experience.
- +New "Trouble shooting help" area.
- +Many bug fixes which should allow for smoother install of exported data.
