Here is one to start off with...

1. Export/import mabelfish/joomfish translations for content items

It's big and red because I think its important...

Welcome Geoffrey

That is on the todo list. :wink:

And thanks for the feedback.

Still on the list but have not had a chance to do much of late as I have been very busy with another paying project.

It may not be added until Joomla 1.5 Beta2 compatable version has been released.
